

VACCINE INFORMATION AND EFFECTIVENESS

1. **Use of Human Fetal Tissue in development and testing** Vaccines that used human fetal tissue for their development = AstraZeneca; Johnson & Johnson/Janssen; Vaccines that used human fetal tissue for testing = AstraZeneca; Inovio; Johnson & Johnson/Janssen; Moderna; Novavax; Pfizer/BioNTech; Sanofi/GSK (<https://s27589.pcdn.co/wp-content/uploads/2020/12/06.02.21-warp-speed-vaccines-June.pdf>)
2. **Johnson & Johnson's Sales:** \$100 million in U.S.A “At its half-year earnings report 2021, J&J estimated full-year vaccine sales of \$2.5 billion.” (<https://biospace.com/article/comparing-covid-19-vaccines-pfizer-biontech-moderna-astrazeneca-oxford-j-and-j-russia-s-sputnik-v>)
3. **Moderna Sales** \$1.3 Billion in U.S.A.; \$1.7 Billion globally; “At its second-quarter earnings report, Moderna projected \$19.2 billion in COVID-19 vaccine sales.” (<https://biospace.com/article/comparing-covid-19-vaccines-pfizer-biontech-moderna-astrazeneca-oxford-j-and-j-russia-s-sputnik-v>)
4. **Pfizer-BioNTech Sales** \$2 Billion in U.S.A.; \$5.8 Billion globally (<https://biospace.com/article/comparing-covid-19-vaccines-pfizer-biontech-moderna-astrazeneca-oxford-j-and-j-russia-s-sputnik-v>)

VACCINE EFFECTIVENESS

5. **Covid 19 infections not restricted by vaccinations?** “At the country-level, there appears to be no discernable relationship between percentage of population fully vaccinated and new COVID-19 cases in the last 7 days... Israel with over 60% of their population fully vaccinated had the highest COVID-19 cases per 1 million people in the last 7 days... Both [Iceland and Portugal] countries have over 75% of their population fully vaccinated and have more COVID-19 cases per 1 million people than countries such as Vietnam and South Africa that have around 10% of their population fully vaccinated... there is also substantial county variation in new COVID-19 cases within categories of percentage population fully vaccinated. There also appears to be no significant signaling of COVID-19 cases decreasing with higher percentages of population fully vaccinated.” (<https://link.springer.com/article/10.1007/s10654-021-00808-7>)
6. **Breakthrough Cases Surge: Vaccinated Individuals Accounted for 87% of Covid Hospitalizations Over the Past Week in Wales UK; 99% of All New Cases Were Under 60 Years Old** (<https://boudicaus.wordpress.com/2021/10/05/breakthrough-cases-surge-vaccinated-individuals-accounted-for-87-of-covid-hospitalizations-over-the-past-week-in-wales-uk-99-of-all-new-cases-were-under-60-years-old/>)
7. **Countries banning and restricting Covid 19 Vaccines** 1) Iceland Bans Moderna Vaccine Use Due To Heart Inflammation Risk (<https://www.zerohedge.com/covid-19/iceland-bans-moderna-vaccine-use-due-heart-inflammation-risk>) 2) Sweden, Finland, Denmark, and Norway have already limited the use of the Moderna vaccine over the same concerns.” (<https://www.zerohedge.com/covid-19/iceland-bans-moderna-vaccine-use-due-heart-inflammation-risk>)
8. **Autopsies of Covid 19 Vaccinated people sounds alarm** “The director of the Pathological Institute of the University of Heidelberg [Germany], Peter Schirmacher, has carried out over forty autopsies on people who had died within two weeks of their vaccination. Schirmacher expressed alarm over his findings... politics, science and the media are campaigning against Schirmacher and his alarming results are being completely ignored, it would be another red flag regarding the safety of the products.” (<https://freewestmedia.com/2021/08/03/german-chief-pathologist-sounds-alarm-on-fatal-vaccine-injuries> and <https://freewestmedia.com/2021/09/22/lymphocyte-riot-pathologists-investigate-deaths-after-corona-vaccination/>)

VACCINE RELATED INJURIES AND DEATHS

9. **Deaths related to Covid 19 Vaccines** The Total Number of Covid 19 related deaths reported by the CDC for 2019-10/15/2021 is 13,422. The total of ALL vaccine related deaths, excluding Covid 19 vaccines, since 1968 to 10/15/2021 is 9,184. The covid 19 vaccines are substantially more dangerous. (<https://carm.org/covid/graph-comparing-world-wide-vaccine-deaths-all-records-and-covid19-vaccine>)
10. **Deaths among the Covid 19 vaccinated** Sen. Ron Johnson: Pandemic of the Unvaxxed. “Data from England Show 63% of Delta Deaths in Last 7.5 Months Were Fully Vaxxed” (<https://globalresearch.ca/sen-ron-johnson-data-england-show-63-delta-deaths-last-7-5-months-fully-vaxxed/5757615>)
11. **Injuries reported due to Covid 19 Vaccines** Reports of side-effect, injuries, and death soon after taking Covid 19 Vaccines include Autoimmune inflammatory syndrome, Blood Clotting, Cerebral Sinus Veign Thrombosis, Death, Heart Problems, Menstrual Cycle Issues; Myocarditis, Respiratory Symptoms (<https://carm.org/covid/reports-of-side-effect-injuries-and-death-soon-after-taking-covid-19-vaccines>)
12. **Fewer than 1% of vaccine adverse effects are reported** “Likewise, fewer than 1% of vaccine adverse events are reported. Low reporting rates preclude or slow the identification of “problem” drugs and vaccines that endanger public health. New surveillance methods for drug and vaccine adverse effects are needed.” (<https://openvaers.com/images/r18hs017045-lazarus-final-report-20116.pdf>)
13. **800,000+ Adverse events from Covid 19 Vaccines** According to the CDC, Covid 19 Vaccines have resulted in 837,595 total adverse events for the time period covering up to 10/22/2021. (<https://carm.org/covid/table-covid19-vaccine-side-effect-per-cdc-vaers>)
14. **More Than 30,000 Women Have Reported An Alteration In Their Menstrual Cycle** After Receiving The COVID-19 Vaccine (<https://www.newsbreak.com/news/2376824823601/more-than-30-000-women-have-reported-an-alteration-in-their-menstrual-cycle-after-receiving-the-covid-19-vaccine>)

IMMUNITY

15. **Natural Immunity is up to 13 times better than vaccine for delta variant** "SARS-CoV-2-naïve vaccinees had a 13.06-fold (95% CI, 8.08 to 21.11) increased risk for breakthrough infection with the Delta variant compared to those previously infected, when the first event (infection or vaccination) occurred during January and February of 2021....This study demonstrated that natural immunity confers longer lasting and stronger protection against infection, symptomatic disease and hospitalization caused by the Delta variant of SARS-CoV-2, compared to the BNT162b2 [Pfizer Vaccine] two-dose vaccine-induced immunity." (<https://medrxiv.org/content/10.1101/2021.08.24.21262415v1>)
16. **Immunity Debt** "The longer these periods of "viral or bacterial low-exposure" are, the greater the likelihood of future epidemics...Due to the decreased spread of RSV [Respiratory Syncytial Virus] this year as a result of anti-COVID-19 measures, the natural protection of the population against RSV at the end of winter will be lower than usual, raising fears of a more important RSV epidemic in the future..." (<https://sciencedirect.com/science/article/pii/S2666991921001123>)

MASKS

17. **Effectiveness of Masks still under debate** "The effectiveness of masks, however, is still under debate. Compared with N95 or FFP2 respirators, which have very low particle penetration rates (~5%), surgical and similar masks exhibit higher and more variable penetration rates (~30 to 70%) (2, 3). Given the large number of particles emitted upon respiration and especially upon sneezing or coughing (4), the number of respiratory particles that may penetrate masks is substantial, which is one of the main reasons for doubts about their efficacy in preventing infections. Moreover, randomized clinical trials have shown inconsistent or inconclusive results, with some studies reporting only a marginal benefit or no effect of mask use. Thus, surgical and similar masks are often considered to be ineffective." (<https://science.sciencemag.org/content/372/6549/1439>)
18. **Surgical mask efficiency of 50% does not prevent particle release via respiration** "Respiratory particles, including aerosol particles and larger droplets, can carry viruses and are often used to visualize the transmission of airborne viruses. Taking a representative average of respiratory activity, we find that a person typically emits a total number of $\sim 3 \times 10^6$ particles during a 30-min period (supplementary text, section S1.1). This very large number implies that indoor environments are usually in a respiratory particle-rich regime. Surgical masks with particle collection efficiencies of ~50% cannot prevent the release of millions of particles per person and their inhalation by others." (<https://science.sciencemag.org/content/372/6549/1439>)
19. **Cloth masks are only 3% effective as stopping virus transmission** "...filtration efficacy of cloth face mask was found as low as 3% on laboratory based filtration test of cloth masks, which could be because of poor quality of cloth used for making face mask." (<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC7497125>)
20. **Masks as breeding grounds for bacteria and fungi** "Another research shows that a moist mask is a breeding ground for (antibiotic resistant) bacteria and fungi, which can undermine mucosal viral immunity. This research advocates the use of medical / surgical masks (instead of homemade cotton masks) that are used once and replaced after a few hours." (<https://bmj.com/content/370/bmj.m3021/rr-6>)
21. **Negative Masks effects:** claustrophobia, oxygen deprivation, fatigue, nausea, dizziness, headaches, sinusitis, skin problems, increased stress hormones, psychological stress, increased depression, weakened immune system, and anxiety. (<https://bmj.com/content/370/bmj.m3021/rr-6>)

FLU

22. **FLU** Report from 10/15/2021 In 2009, the H1N1 Flu virus resulted in a 0.69% death rate. (<https://cdc.gov/h1n1flu/updates/072409.htm>) but the Covid 19 Virus has a 0.27% death rate (<https://www.cdc.gov/nchs/covid19/mortality-overview.htm>)

QUESTIONS

1. Why is covid suddenly the virus that shuts down economies when the Flu H1N1 had a higher infection and death rate? (Line 22)
2. If the Covid Vaccines have a high rate of adverse effects, why force people to get them? (Lines 9 - 14)
3. If the vaccines work, why do 'officials' want the vaccinated to wear masks? (Lines 17 - 20)
4. Why are there so many breakthrough Covid 19 infections if the vaccines are effective? (Lines 6, 15)
5. If cloth masks are only 3% effective, why have everyone wear them? (Line 19)
6. If surgical masks are at on average 50% effect, why have everyone wear them? (Lines 17-18)
7. Why is the government breaking the law and encouraging unvaccinated people to come into our country at the southern border if our health is such a great concern?
8. If the liberal left says, my body, my choice about abortion, why don't they say the same thing about vaccinations?
9. Why get vaccinated if natural immunity is 13x better than the vaccine?
10. Since so much money is being made by the pharmaceutical companies who have a tremendous interest to keep their vaccines circulated (with booster shots), can we really trust that their interests are for the good of the people and that the vaccines are that safe? (Lines 2, 3, 4)
